A key difference between Blackjack and Spanish 21 is that all 10s are removed from the deck in Spanish 21. A Blackjack occurs when the first two cards that are dealt equal 21 – a combination of a face card (Jack, Queen, or King) and an Ace (which can have a value of 1 or 11.)

High-limit rooms will offer 3:2 odds on blackjack, but these limits are often out of reach for most gamblers. As casinos push 6:5 odds with a house edge of 1.40% or greater in some cases, Spanish 21 is by far the better game to play. The Spanish 21 house edge of 0.40% is the much more attractive option.
