Sometimes the payout shown includes the money you wagered for instance, if you bet R\$10 to win R\$50, the payout would show R\$60. If it doesn't, just add the amount you bet to the potential winnings to determine the total payout. You can also calculate potential odds and payouts before making a bet.

Put simply, to cash out means that you can get money back on your bet at any time during the event you've bet on, not just when the event is over. The amount you get back depends on the point during the event which you cash out, and because of that, you may actually get less out than the money you initially laid down.
